FreCher

(IAC)

January 2016 – March 2016

Domain : Internet

Technologies : Android

Frecher “Freedom to Teacher” a product of SKOL system India is a mobile application that provides its affiliates with complete classroom study support for Senior Secondary Board examinations, PMT and IIT-JEE. Rooted in academic rigor, the courseware is scientifically designed by subject experts and is systematically divided into modules and sub-groups to aid thorough study. The tests are meticulously designed to integrate with the course programme on various parameters. Also, ranking software has been developed to generate students’ ranks at the batch, district, state and national levels, which gives an overview of the progress made by students as well as the mentors’ success ratio.

FreCher provides a customized programme and schedule for its affiliates. A dedicated R&D team works around the clock to update and integrate the changes in curriculum in real time. Video resources available through FreCher help clear doubts 24x7. All these features help students, teachers, promoters and entrepreneurs to not only realize their potential but raise the level of their results manifold.

Elocate (IAC)

Oct 2015– December 2015

Domain : Internet

Technologies : Android

Emergency Communication “EC/eLocate” is a mobile application that runs on android based mobile devices. It provides user a procedure for response to emergencies that causes disruption to him. EC helps user to take desired help from a particular authority or department (Hospital, Police Station, Fire Station, Nearby Friends, etc.) depending on the type of emergency. It locates the point of interest (POIs) on a map and retrieves information about point of interest such as contact number, e-mail id, etc.
