## OBJECTIVE

Seeking a varied and challenging system administration position in a Cloud environment requiring new and creative applications of technology to solve functional problems where skills, knowledge and expertise gained throughout previous experience in the IT, services and consulting can be transferred across and utilized to best effect for the benefit of your organization. It would be my never-ending dedication to maintain the spectrum of integrity, honesty and character.

## PROFESSIONAL PROFILE:

A continuous learner. An accomplished, versatile, and results-driven Project Engineer, with Master's Degree in Computer Applications and Technology. Currently working in Red Hat Linux environment. Continually updating knowledge base and widening the horizon via e-learning with ten plus MOOC certificates in Linux, Cloud and Cyber Security.

## EXPERIENCE
